

Partnerships for Infrastructure

Presentation to the Greater Mekong Subregion
Subregional Transport Forum

14 June 2022

Australian Government

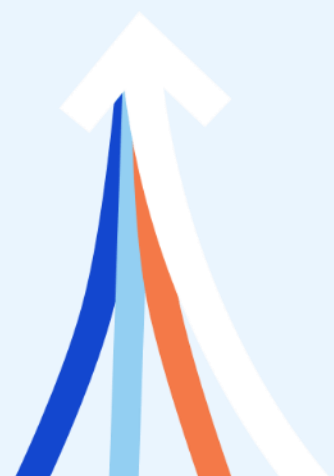

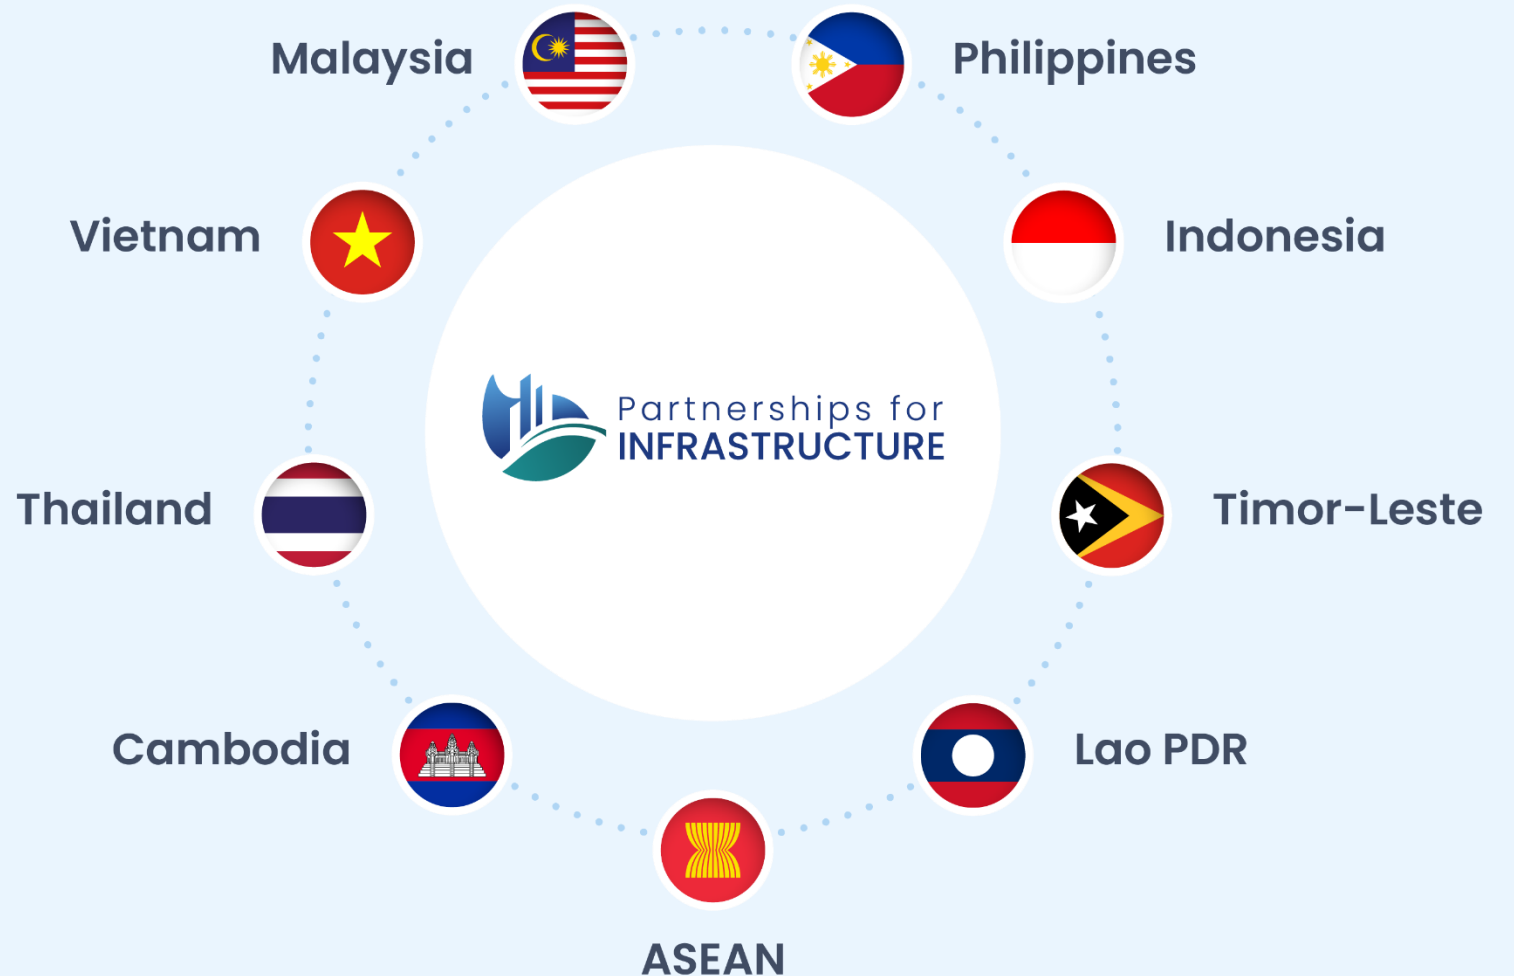

Partnerships for
INFRASTRUCTURE

Where we work

Australia is contributing to quality infrastructure development that drives inclusive growth in Southeast Asia

With support from the Australian Government, P4I provides flexible, innovative services tailored to the distinct needs of each of our partners: Cambodia, Indonesia, Laos, Malaysia, Philippines, Thailand, Timor-Leste, Vietnam and the Association of Southeast Asian Nations (ASEAN).

What we do

Infrastructure is complex, and each opportunity and challenge requires a tailored response

P4I's specialist areas are policy and regulation, prioritisation and planning, and procurement.

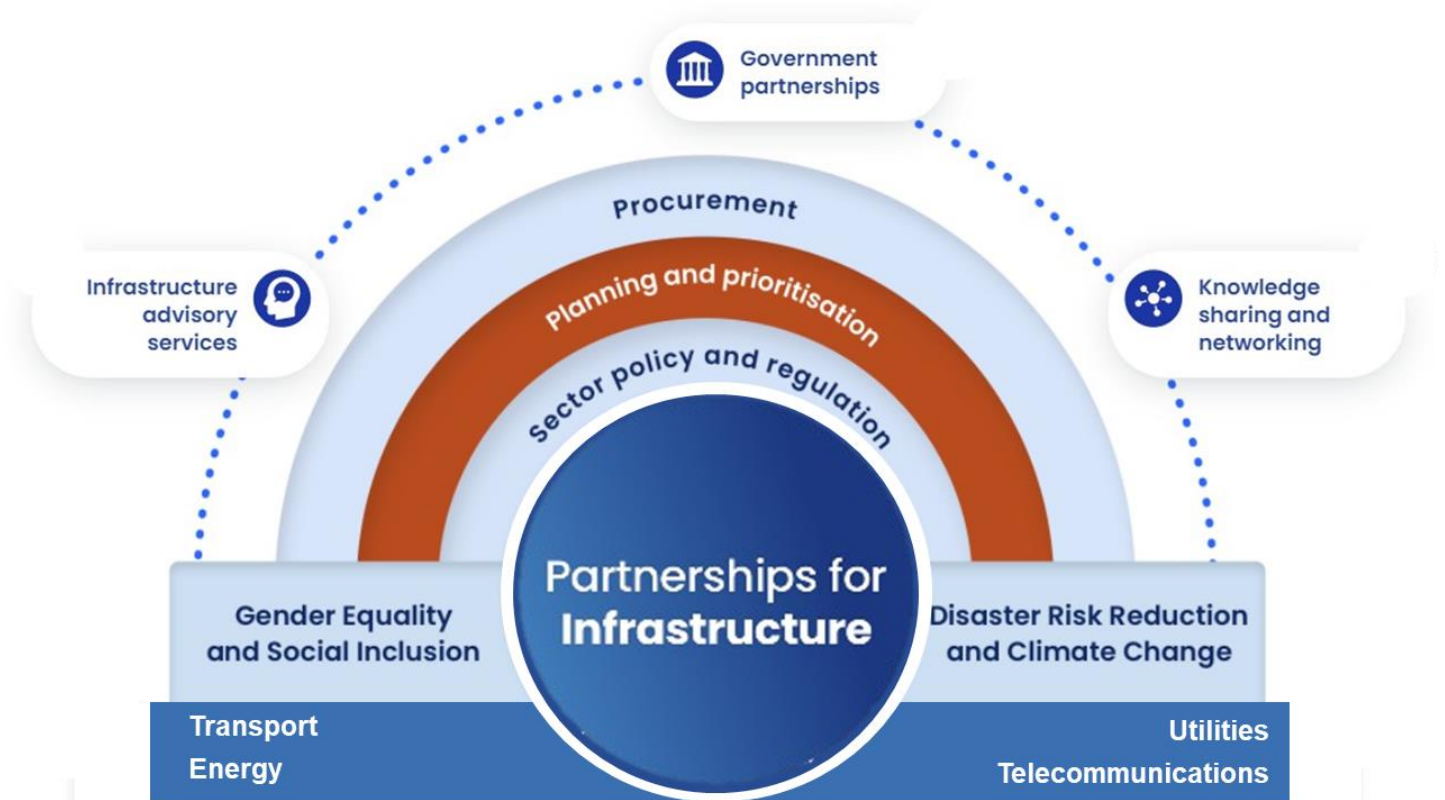

Embedded across these areas are the cross-cutting priorities of gender equality, social inclusion, disaster risk reduction and climate change.

P4I works with Southeast Asian partners in three main ways:

- Infrastructure advisory services
- Government partnerships
- Knowledge sharing and networking

Current focus sectors include:

- Transport
- Energy
- Utilities
- Telecommunications

Who we are

P4I is delivered by five organisations working as one team, united by a shared commitment to quality infrastructure development in Southeast Asia

P4I's Hub Office is in Bangkok, with staff and experts located throughout the region and in Australia.

P4I is delivered by five diverse organisations working as one team and united by a shared commitment to quality infrastructure development in Southeast Asia.

Led by the Australian Department of Foreign Affairs and Trade, P4I is delivered by EY, The Asia Foundation, Adam Smith International and Ninti One.

Together we strive to ensure our engagement with the region is world-class.

Snapshot of relevant P4I Activities

Supporting interconnectivity and cross-border initiatives

Laos Economic Connectivity Project

- Supporting the South-East Asian Regional Economic Corridor and Connectivity (SEARECC) Project
- Improving east-west connectivity in the Mekong subregion
- Implementation of a project featured on the Initial Pipeline of ASEAN Projects
- Partnering with the Government of Laos, World Bank, and European Investment Bank

Enhancing Container Processing Procedures in ASEAN

- Identify and understand container processing issues faced by ASEAN nations and shipping lines, including the impact of COVID-19
- Determine short-term and long-term solutions to solve these issues
- Supporting the ASEAN Secretariat

Cross-Border Scoping Study

- Inform P4I's approach to land transport cross-border infrastructure in Southeast Asia
- Focused on supporting bilateral and trilateral engagement, and regional and subregional cross-border initiatives

Maritime and Logistics Scoping Study

- Aims to enhance P4I's understanding of the maritime and logistics sector in Southeast Asia
- Identify areas where P4I can support in improving the planning, performance, and delivery of maritime projects in ASEAN
